

Table 2: 2010 Cardiac CTA AMA CPT Code Changes

2010 CPT Code	Description	Comments
• 75571	Computed tomography, heart, without contrast material, with quantitative evaluation of coronary calcium	New. Replaces 0144T. Do not bill with 75572-4.
• 75572	Computed tomography, heart, with contrast material, for evaluation of cardiac structure and morphology (including 3D image postprocessing, assessment of cardiac function, and evaluation of venous structures, if performed)	New. Potential Crosswalk codes. Replaces 0145T. (eg, Pre Electrophysiology [EP], Pre Atrial-Fibulation Ablation [A-Fib] Studies)
• 75573	Computed tomography, heart, with contrast material, for evaluation of cardiac structure and morphology in the setting of congenital heart disease (including 3D postprocessing, assessment of LV cardiac function, RV structure and function and evaluation of venous structures, if performed)	New. Potential Crosswalk codes. Replaces 0150T.
• 75574	Computed tomographic angiography, heart, coronary arteries and bypass grafts (when present), with contrast material, including 3D image postprocessing (including evaluation of cardiac structure and morphology, assessment of cardiac function, and evaluation of venous structures, if performed)	New. Potential Crosswalk codes. Replaces 0146T-0149T.
0144T	Computed tomography, heart, without contrast material, including image postprocessing and quantitative evaluation of coronary calcium	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0145T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; cardiac structure and morphology	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0146T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), without quantitative evaluation	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.

	of coronary calcium	
0147T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), with quantitative evaluation of coronary calcium	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0148T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; cardiac structure and morphology and computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), without quantitative evaluation of coronary calcium	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0149T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; cardiac structure and morphology and computed tomographic angiography of coronary arteries (including native and anomalous coronary arteries, coronary bypass grafts), with quantitative evaluation of coronary calcium	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0150T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; cardiac structure and morphology in congenital heart disease	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.
0151T	Computed tomography, heart, with contrast material(s), including noncontrast images, if performed, cardiac gating and 3D image postprocessing; function evaluation (left and right ventricular function, ejection fraction and segmental wall motion) (List separately in addition to code for primary procedure)	Deleted. Cross-references have been added in the Category III section to direct users to the new codes.

AMERICAN SOCIETY OF
NUCLEAR CARDIOLOGY

**(For cardiac computed tomography of the heart, see
Category III codes ~~0144T-0151T~~ 75571-75574)**

**(For coronary artery computed tomographic angiography
including calcification score and/or cardiac morphology, see
Category III codes ~~0146T-0149T~~ use 75574)**

The cross-reference following code 71270 has been updated to reflect the new codes. The exclusionary notes following codes 76376 and 76377 were revised by adding the new codes, indicating that codes 76376 and 76377 should not be reported with codes 75571-4.
