

## **GREETINGS FROM THE MAYOR OF SAN FRANCISCO**

On behalf of the residents of San Francisco it is with great pleasure that I welcome you to the American Society of Nuclear Cardiology Scientific Session. Since its inception, the American Society of Nuclear Cardiology (ASNC) is the recognized leader in quality, education, advocacy and standards in cardiovascular imaging, with more than 4,200 members worldwide. 2018 marks its 25th year anniversary as the only society dedicated solely to the field of nuclear cardiology and we're honored to have physicians, scientists, technologists, nurses, and industry partners from around the world celebrate this special milestone in our city.

With over a thousand attendees expected in the coming days you will be connecting with colleagues broadening your knowledge on emerging research, new technology, and advances in treatment in the field of nuclear cardiology and cardiac imaging. San Francisco is proud to be a hub for innovation and ideas, and as Mayor of this great City, it is my hope that this conference will help the members of the American Society of Nuclear Cardiology engage in stimulating dialogue and foster ideas that can positively impact patient outcomes.

I hope you all have a successful conference and allow some time exploring San Francisco.

With warmest regards,

A handwritten signature in black ink that reads "London Breed".

London N. Breed  
Mayor
