Customized Cardiac PET/CT imaging solutions...delivered straight to your practice

Partner with CDL Nuclear Technologies, the turnkey PET solutions provider trusted by more cardiologists.
Cardiac PET: a clear diagnostic advantage

Recommended by clinical societies\(^1,2\)

- **ASNC/SNMMI Joint Position Statement (2016)**\(^1\)
  
  - **ACC/AHA Joint Committee on Clinical Practice Guidelines (2021)**\(^2\)

  “There are no clinical scenarios where PET should not be considered a preferred test for patients who meet appropriate criteria for a stress imaging test and who require pharmacologic stress.”

ASNC/SNMMI=American Society of Nuclear Cardiology/Society of Nuclear Medicine and Molecular Imaging. ACC/AHA=American College of Cardiology/American Heart Association.

Proven superior in clinical studies\(^3\)

**Cardiac PET is superior to SPECT in clinically compelling ways**

<table>

\(^*\)4-7 mm vs 12-15 mm with SPECT.

PET/CT: 3 benefits in 1 modality

Adding critical data to the clinical picture

1. Rest and peak stress left ventricular ejection fraction\(^8\)
2. Cardiac blood flow quantification\(^9\)
3. Coronary artery calcification\(^10\)
CDL: your perfect partner for Cardiac PET/CT

Complete, customized PET and PET/CT suites—with little to no upfront costs

In just 180 days,* we’ll take you from PLANNING to SCANNING

Actual CDL Cardiac PET/CT suite build

Exclusive 200-point process: the most comprehensive service and support available

180-day (and beyond) timeline of benefits

*On average.
CDL: a highly experienced & dedicated partner

The leading provider of Cardiac PET and PET/CT solutions in the US

- Founded in 1992
- Partnering with medical practices for 30 years
- Offering unmatched affordability to make advanced Cardiac PET and PET/CT accessible
- Reimbursement coverage and payment relationship network (political and societal advocacy)

More Cardiac PET and PET/CT suite builds than any other company in our field

- 71 Cardiac PET and PET/CT suites
- 10 Upcoming Cardiac PET and PET/CT suites
- 14 MedAxiom clients
- 14 States*

As of August 2022.

State-of-the-art PET and PET/CT technology (including new and nearly new equipment) for the most accurate diagnoses

CardioNavix: the first and only patented on-demand mobile rubidium

Bringing Rubidium-82 right to your doorstep

How it works
• Supplies the CardioGen-82® infusion system on a fixed schedule you choose
  - The only company in the US equipped to transport this system
• Delivered to your lab overnight, ready for use
• Removes the CardioGen-82® infusion system at the end of clinic hours

Why it matters
• Allows scalability for your practice
• Patients are scanned according to your daily schedule, with direct infusion giving you the capability to use as many doses as necessary

Only CardioNavix allows you to scale to manage isotope costs

<table>

CDL NUCLEAR TECHNOLOGIES
CardioNavix
Delivering the highest quality Cardiac PET and PET/CT equipment, service, and support

Our partnerships make the difference…

With cardiology practices
To help facilitate the very best diagnostic care by accommodating their individual PET and PET/CT needs—from full PET and PET/CT suites to mobile rubidium programs

With equipment providers
To get the most advanced PET and PET/CT equipment at preferred prices for our cardiology partners

With nationally renowned KOLs
As an invaluable resource for all PET and PET/CT-related questions

With our people
Because they are our family and make our cardiology partners feel like family, too

Partner with us and transform your practice—
